# The Forrester Wave™: Enterprise Governance, Risk, And Compliance Platforms, Q3 2009

by Chris McClean

- **MetricStream.** MetricStream targets a wide range of GRC professionals, recently winning deals on the strength of its new audit management capabilities. With a substantial peer network and content delivered through its ComplianceOnline.com business, MetricStream presents a strong value proposition to compliance professionals. Policy and procedure management was its best category among the core technical GRC criteria. It is still one of the smaller GRC vendors in the market, but the company's vision and capabilities across all major components of GRC are raising its ability to compete. The company may struggle to maintain its strong growth rate, however, as it competes more often with larger, more established vendors.
